

Project Geologist (Coal)

Fly in - fly out from Brisbane

- Fly in – fly out from Brisbane
- Exciting opportunity to be part of a rapidly developing business
- Multiple exploration projects in Qld, NT and NSW
- Innovative thinking and project genesis

Waratah Coal Pty Ltd is an innovative coal company recently acquired by Mineralogy Pty Ltd. The Company has exploration and development projects located in Queensland, New South Wales and the Northern Territory.

The Company recently announced the development of the China First Project, a 40Mt pa mining venture in the Galilee Basin. The Company is the largest tenement holder in the Galilee Basin and has already established resources and reserves in excess of 5 Billion tonnes. The China First Project includes the construction of a 490km standard gauge rail to the port of Abbot Point and port facilities for export. The project is valued at \$7.466B and has received financial backing from Metallurgical Corporation of China Limited.

This role may lead significant career advancement and applicants are encouraged to define their longer term goals.

Competitive remuneration package will be paid commensurate with the quality of the candidate.
